

ESF Programmes 2019

European Union
European
Social Fund

INTRODUCTION:

The Greater Birmingham and Solihull Local Enterprise Partnership (GBSLEP) Strategic Economic Plan (March 2016) sets out how we will work together and with our partners to deliver economic growth throughout Greater Birmingham & Solihull, and in doing so, raise the quality of life for all our residents, visitors and businesses. It sets out our ambition to become a top global city region by 2030 as well as the major driver of the UK economy outside of London.

BREXIT?

The Brexit referendum, took place on 23 June 2016 in the United Kingdom (UK) and Gibraltar. With 51.9% of votes cast being in favour of leaving the EU the UK Government initiated the official EU withdrawal process on 29 March 2017, meaning that the UK was due to leave the EU before 11PM on 29 March 2019, UK time, when the two-year period for Brexit negotiations was due to expire, although this period has now been extended the current position remains unchanged.

This means that the ESF and ERDF Funds will continue to support your growth plans until the programmes end. So that you can continue to invest with confidence and certainty, the UK Government has guaranteed that if we leave the EU without a deal, we will continue to fund all ESI Funds projects that would have been funded by the EU under the 2014 2020 programme period. All of these programmes must be completed by December 31st 2023.

The UK Government have published over 200 technical notices to ensure that people and businesses have the information to prepare for EU Exit and many of these are available through the Direct.Gov web site:

1. The government's guarantee for ESF funded programmes if there is no Brexit deal, can be found [here](#)
2. UK government's preparations for a no-deal scenario, can be found [here](#)
3. How to prepare if the UK leaves the EU with no deal, can be found [here](#)
4. Public sector procurement after Brexit, can be found [here](#)
5. The government's guarantee for ERDF funded programmes if there is a no Brexit deal, can be found [here](#)
6. State Aid if there's a no Brexit deal, can be found [here](#)

WHAT IS THE ESF?

The ESF is Europe's main instrument for supporting jobs, helping people get better jobs and ensuring fairer job opportunities for all EU citizens. It works by investing in Europe's human capital – its workers, its young people and all those seeking a job. ESF financing of EUR 10 billion a year is improving job prospects for millions of Europeans, in particular those who find it difficult to secure sustainable employment. The European Union is committed to creating more and better jobs and a socially inclusive society. These goals are at the core of the Europe 2020 strategy for

generating smart, sustainable and inclusive growth in the EU. The current situation in the UK with ongoing negotiations around BREXIT has produced some uncertainty over the future of projects. However, the UK government has now guaranteed to maintain funding agreed under the ESIF which includes both ESF and ERDF. The extension means the UK government will continue to sign new projects, even in the event of a no deal Brexit, throughout 2019 and 2020.

The ESF is playing an important role in meeting the UK and Europe's goals, and in mitigating the consequences of the economic crisis – especially the rise in unemployment and poverty levels.

Setting ESF priorities

The European Commission and EU countries in partnership set the ESF's priorities and how it spends its resources.

The key outcomes as a result of the ESF investment will be:

- Improved economic participation across the labour market
- Reduced income disparity and increased social inclusion
- Increased employment levels and productivity

A key priority is to focus on disadvantaged groups and enable them to secure sustainable employment. This is part of enhancing 'social inclusion' – a sign of the important role that employment plays in helping people integrate better into society and everyday life.

Projects for people

The ESF is helping to fund local, regional and national employment related projects in the GBS LEP area. These include small projects run by neighbourhood charities to help local disabled people find suitable work, up to nationwide projects that promote vocational training among the whole population.

There is a great variety in the nature, size and aims of ESF projects, and they address a wide variety of target groups. There are projects aimed at job-seekers, people who are currently inactive in the labour market, those looking to improve their education within the workplace and those who are facing redundancy as well as potential entrepreneurs from all backgrounds.

The key measurable outputs to ensure investment is on track will include:

- Participants on the programme
- Unemployed participants
- Employed participants on the programme
- Young people participating in the programme

The key measurable results to ensure investment is making a difference will include:

- Number of people supported into work
- Number of people with improved basic/higher level skills
- Number of people in employment
- Reduced skills deficits

Programme Name	Lead Organisation and Contact	Area Covered	Target Group	Brief Description of project	Start date	End Date
Skills Support for the Workforce/Redundancy (Employee Support in Skills)	People Plus westmidlands.skills@peopleplus.co.uk https://peopleplus.co.uk/skills-for-businesses/	Small or medium sized businesses based in the GBS LEP More developed area that employ less than 250 people	Employees facing redundancy or those who have been made redundant. Employees within small and medium-sized businesses wishing to access services to upskill themselves.	A free service, created to help small to medium-sized employers turn their business growth plans into reality by up-skilling their existing workforce, specifically in the Birmingham and Solihull area. We work with employers to identify their skills gaps and recommend bespoke training plans which will give their workforce the skills they need to grow the business. And the best bit – we even deliver the training for free. Benefits <ul style="list-style-type: none"> • Develop your staff at no cost. • Flexible training plans, designed to help your business grow • Range of courses to suit most needs • Staff can study remotely on own computer, laptops and phones • Staff can study in their own time – no impact on day to day operations • Complimentary to staff CPD requirements • Essential to your commitment to staff development • Promotes staff wellbeing, which in turn encourages staff retention 	01/04/2019	31/07/2021

Current Closed ESF Calls

Location	Reference	Investment priority	Details	Call Close
The project must cover the GBSLEP area.	NEET provision in Greater Birmingham and Solihull LEP area OC12S17C0804	1.2 Sustainable Integration of Young People into the Labour Market	The additional support from this investment priority will help more young people enter traineeships and apprenticeships (in areas that do not qualify for the Youth Employment Initiative up to 2018) It will improve the quality of what is offered to individuals by improving recruitment and assessment and engagement with employers. By helping more young participants aged 15 to 24, male and female, who were NEET or at risk of NEET, to take up traineeships or apprenticeships, we will improve movements into work.	05 October 2017
The project must cover the GBSLEP.	Greater Birmingham and Solihull Skills for Growth Hub – Skills Training Response fund OC12S17P0799	2.1: Enhancing equal access to lifelong learning	GBSLEP put in place a “Growth Hub” model of business support to assist companies across the LEP and surrounding area. The Growth Hub should now be expanded with the design and creation of a GBSLEP Skills for Growth Hub, which is intended to increase apprenticeship, intern and work experience uptake, as well as supporting skills needs identified by employers, particularly in GBSLEP growth sectors.	5th October 2017
Greater Birmingham and Solihull LEP – More Developed area	Greater Birmingham and Solihull – Improving Basic & Low skills and Tackling Disadvantage OC12S17P0806	2.1: Enhancing equal access to lifelong learning	This call is to provide additional training and support for people at basic and low skills levels, in particular addressing the needs of disadvantaged groups in and out of the workplace. It will address skills shortages or needs in the GBSLEP Growth Sectors and sectors where there is significant job replacement demand or with employers where they demonstrate the need for succession planning.	5th October 2017

Location	Reference	Investment priority	Details	Call Close
Greater Birmingham and Solihull LEP – More Developed area	Greater Birmingham and Solihull Higher Skills Higher Skills Call OC12S17P0805	2.1: Enhancing equal access to lifelong learning	<p>This Call is to provide additional support to address skills shortages or needs where there are gaps or specific barriers preventing individual progression and up-skilling for those in work.</p> <p>To increase the number of employed people progressing to the next level skills, particularly at level 3 and above and into higher and advanced level apprenticeships, to support business growth.</p> <p>It is important that applicants can show that they have considered how their proposal will support the current service offer in the GBSLEP Growth Hub - in the instance of providing support to businesses and mainstream providers in respect of skills and employability services.</p>	5th October 2017
The project must cover the GBSLEP area.	Greater Birmingham and Solihull Skills for Growth Hub I.P 2.2 OC12S17P0800	2.2: Improving the labour market relevance of education and training systems.	<p>Through this call the ESF Managing Authority is seeking to deliver provision and support to address the skills issues of SMEs and their employees in sectors which present the greatest opportunities for economic and employment growth in the More Developed Region of Greater Birmingham and Solihull LEP area, made up of:</p> <p>Birmingham, Solihull, Redditch, Bromsgrove, and Wyre Forest.</p> <p>GBSLEP is seeking to design, create and establish a Skills for Growth Hub via an aligned ESF 2.2 call, which will support the GBSLEP Growth Hub model of business support to assist companies with skills needs across the LEP and surrounding area. The Skills for Growth Hub is intended to increase apprenticeship, intern and work experience uptake, as well as supporting skills needs identified by employers, particularly in GBSLEP growth sectors.</p>	5th October 2017
GBS LEP More Developed	OC12S19P1442	1.2	<p>Call to run a project targeting and supporting young people aged 15-24 who are identified as 'at risk of becoming NEET' in the GBSLEP area.</p> <p>Call Specification</p>	02/09/2019
GBSLEP More Developed	OC12S19P1444	1.1	<p>Call to run a project to support unemployed people and inactive residents to move closer to employment through participation in sports coaching and leadership, leisure, creative skills, volunteering, stewarding and marshalling in the GBSLEP area.</p> <p>call specification.</p>	02/09/2019

Location	Reference	Investment priority	Details	Call Close
